SIXTH UNITED NATIONS REGIONAL
CARTOGRAPHIC CONFERENCE FOR
THE AMERICAS
New York, 2-6 June 1997
Item 4 of the provisional agenda*

COUNTRY REPORT

Activities of the International Society for Photogrammetry and Remote Sensing (ISPRS)

Paper submitted by ISPRS**

Summary

This paper describes the organization of ISPRS and its current activities in and related to cartography. The programmes of ISPRS deal with advanced technologies for cartographic applications. The activities include the scientific and technological programme established for the period 1996-2000, which is being conducted in various working groups within the domain of the seven ISPRS commissions.
